

The Marzano Teacher Evaluation Model by Washington State Criteria

Including Possible Teacher/Student Evidence and Elements for Teacher Growth and Development

Criterion 1: Centering instruction on high expectations for student achievement.			
Component 1.1: Providing Clear Learning Goals and Scales (Rubrics)			
<i>The teacher communicates high expectations for learning by developing, aligning, and communicating clear daily learning targets and/or longer-term learning goals (grade-level standards) with rubrics for the goals.</i>			
Possible Teacher Evidence		Possible Student Evidence	
- Has a learning target/goal posted so that all students can see it - Ensures that the learning target/goal is a clear statement of knowledge or skill as opposed to an activity or assignment - Makes reference to the learning target/goal throughout the lesson - Has a scale or rubric that relates to the learning goal posted so that all students can see it - Makes reference to the scale or rubric throughout the lesson		- Can explain the learning target for that day's lesson - Can explain the relationship of the daily target to the long-term learning goal (grade-level standard) - Can explain how their current activities relate to the learning target/goal - Can explain the meaning of the levels of performance articulated in the scale or rubric - Can explain how they will achieve the learning target/goal	
Unsatisfactory - 1	Basic - 2	Proficient - 3	Distinguished - 4
When the strategy is called for the teacher does not use it or the teacher uses the strategy incorrectly or with parts missing.	The teacher provides a stated learning target (daily) and/or learning goal (longer term) but the learning goal is not accompanied by a scale or rubric that describes levels of performance.	The teacher provides a clearly stated learning target (daily) and/or learning goal (longer term). The learning goal is accompanied by a scale or rubric that describes levels of performance. Additionally, the teacher monitors students' understanding of the learning target/goal and the levels of performance.	The teacher adapts or creates new strategies to meet the specific needs of students for whom the typical application of strategies does not produce the desired effect.
Component 1.2: Celebrating Success			
<i>The teacher celebrates student success relative to the learning targets and/or the learning goals.</i>			
Possible Teacher Evidence		Possible Student Evidence	
- Acknowledges students who have achieved a certain score on the scale or rubric - Acknowledges students who have made gains in their knowledge and skill relative to the learning goal - Acknowledges and celebrates the final status and progress of the entire class - Uses a variety of ways to celebrate success (Show of hands, Certification of success, Parent notification, Round of applause)		- Shows signs of pride regarding their accomplishments in the class - Say they want to continue to make progress - Show enthusiasm when receiving team points	
Unsatisfactory - 1	Basic - 2	Proficient - 3	Distinguished - 4
When the strategy is called for the teacher does not use it or the teacher uses the	The teacher provides students with recognition of their current status but not	The teacher provides students with recognition of their current status and their knowledge gain relative to	The teacher adapts or creates new strategies to meet the specific needs of students for whom the

Including Possible Teacher/Student Evidence and Elements for Teacher Growth and Development

strategy incorrectly or with parts missing.	their knowledge gain relative to the learning goal.	the learning goal and monitors the extent to which students are motivated to enhance their status.	typical application of strategies does not produce the desired effect.
---	---	--	--

Component 1.3: Understanding Students' Interests and Backgrounds

The teacher builds positive relationships with students by understanding students' interests and background.

Possible Teacher Evidence		Possible Student Evidence	
- Has side discussions with students about events in their lives - Has discussions with students about topics in which they are interested - Builds student interests into lessons - Routinely helps students connect with their current expertise and competency, particularly as unique to their racial, gender, or linguistic identity - Designs learning experiences that compel students to draw from their social and cultural backgrounds		- Describe the teacher as someone who knows them and/or is interested in them - Respond when the teacher demonstrated understanding of their interests and background - Say they feel accepted - Participates willingly in team-building activities	
Unsatisfactory - 1	Basic - 2	Proficient - 3	Distinguished - 4
When the strategy is called for the teacher does not use it or the teacher uses the strategy incorrectly or with parts missing.	The teacher minimally uses students' interests and background during interactions with students.	The teacher uses students' interests and background during interactions with students and monitors the sense of community in the classroom.	The teacher adapts or creates new strategies to meet the specific needs of students for whom the typical application of strategies does not produce the desired effect.

Component 1.4: Demonstrating value and respect for reluctant learners and students regularly marginalized or underserved by school systems

The teacher demonstrates value and respect for all, including reluctant learners, and students who have been marginalized or underserved by school systems over time.

Possible Teacher Evidence		Possible Student Evidence	
- Compliments students regarding academic and personal accomplishments - Engages in informal conversations with students that are not related to academics - Uses humor with students when appropriate - Makes eye contact with students - Smiles, nods, etc. at students when appropriate - Displays sensitivity to cultural issues - Can explain how their own cultural values and personal racial/gender identity shape their interactions with students similar to and different from them		- Describe teacher as someone who values and respects them - Respond to teachers' verbal interactions - Respond to teachers' nonverbal interactions - Demonstrate a strong sense of belonging	
Unsatisfactory - 1	Basic - 2	Proficient - 3	Distinguished - 4

The Marzano Teacher Evaluation Model by Washington State Criteria

Including Possible Teacher/Student Evidence and Elements for Teacher Growth and Development

When the strategy is called for the teacher does not use it or the teacher uses the strategy incorrectly or with parts missing.	The teacher minimally uses verbal and nonverbal behaviors that indicate value and respect for students, with particular attention to reluctant learners and students who are regularly marginalized or underserved by school systems.	The teacher uses verbal and nonverbal behaviors that indicate value and respect for students, with particular attention to reluctant learners and students who are regularly marginalized or underserved by school systems, and monitors the quality of relationships in the classroom.	The teacher adapts or creates new strategies to meet the specific needs of students for whom the typical application of strategies does not produce the desired effect.
---	---	---	---

Criterion 2: Demonstrating effective teaching practices.

Component 2.1: Conducting Direct Instruction Lessons

The teacher helps students effectively interact with new knowledge through direct instruction lessons.

Possible Teacher Evidence		Possible Student Evidence	
• Previews new content by activating students' prior knowledge • Organizes content into small chunks appropriate for students • Provides guidance as to which information is most important • Has students interact about each chunk of content • Asks inferential or elaborative questions • Has students summarize content • Has students create graphic organizers representing content		• Can describe what they already know about the new topic • Can describe which information is the most important • Ask clarifying questions as information is presented in chunks • Generate inferences about the content • Accurately summarize the content • Accurately represent the content using graphic organizers	
Unsatisfactory - 1	Basic - 2	Proficient - 3	Distinguished - 4
The teacher does not employ strategies designed to preview and introduce new knowledge in digestible chunks OR does so with significant errors or omissions	The teacher employs strategies designed to preview and introduce new knowledge in digestible chunks BUT does not monitor the extent to which strategies have their desired effect.	The teacher employs strategies designed to preview and introduce new knowledge in digestible chunks AND monitors the extent to which strategies have their desired effect, which includes: elaborating on critical information and summarizing it in linguistic and nonlinguistic ways.	The teacher adapts or creates new strategies to meet the specific needs of students for whom the typical application of strategies does not produce the desired effect.

Elements for Component 2.1 *Elements are designed to allow teachers to select specific strategies on which to improve and then track their progress using the scales.*

Element 2.1.1: Based on student needs, the teacher breaks content into small chunks (i.e., digestible bites) of information that can be easily processed by students.

Possible Teacher Evidence	Possible Student Evidence
---------------------------	---------------------------

The Marzano Teacher Evaluation Model by Washington State Criteria

Including Possible Teacher/Student Evidence and Elements for Teacher Growth and Development

- Stops at strategic points in a verbal presentation - Pauses at key junctures while showing a video - Stops at strategic points while providing a demonstration - Stops at strategic points while students are reading information or stories orally as a class - Breaks content into comprehensible chunks ordered by daily segments - Maximizes student processing of content by breaking lectures into 10-minute-or-less segments with processing time for students		- Can explain why the teacher is stopping at various points during demonstrations or during presentations - Appear to know what is expected of them when the teacher stops at strategic points - Process with classmates	
Unsatisfactory	Basic	Proficient	Distinguished
When the strategy is called for the teacher does not use it, or the teacher uses strategy incorrectly or with parts missing.	The teacher breaks input experiences into small chunks based on student needs BUT does not monitor the extent to which chunks are appropriate to students' levels of knowledge.	The teacher breaks input experiences into small chunks based on student needs and monitors the extent to which chunks are appropriate.	The teacher adapts and creates new strategies for unique student needs and situations.
Element 2.1.2: During breaks in the presentation of content, the teacher engages students in actively processing new information.			
Possible Teacher Evidence		Possible Student Evidence	
- Has group members summarize new information - Employs formal group processing strategies (i.e., jigsaw, reciprocal teaching, concept attainment)		- Can explain what they have just learned - Volunteer predictions - Voluntarily ask clarification questions - Actively discuss the content in groups - Ask each other and answer questions about the information - Make predictions about what they expect next - Ensure everyone knows the content	
Unsatisfactory	Basic	Proficient	Distinguished
When the strategy is called for the teacher does not use it, or the teacher uses strategy incorrectly or with parts missing.	The teacher engages students in summarizing, predicting, and questioning activities BUT does not monitor the extent to which these activities enhance students' understanding.	The teacher engages students in summarizing, predicting, and questioning activities and monitors the extent to which the activities enhance students' understanding.	The teacher adapts and creates new strategies for unique student needs and situations.
Element 2.1.3: The teacher engages students in activities that help them record their understanding of new content in linguistic ways and/or represent the content in nonlinguistic ways.			
Possible Teacher Evidence		Possible Student Evidence	
- Asks students to summarize the information they have learned - Asks students to generate notes that identify critical information in the content - Asks students to create nonlinguistic representations for new content - Graphic organizers - Pictures - Pictographs - Flow charts - Asks students to create mnemonics that organize the content		- Include critical content in their summaries and notes - Include critical content or demonstrate understanding in their nonlinguistic representations - Can explain main points of the lesson	

The Marzano Teacher Evaluation Model by Washington State Criteria

Including Possible Teacher/Student Evidence and Elements for Teacher Growth and Development

Unsatisfactory	Basic	Proficient	Distinguished
<i>When the strategy is called for the teacher does not use it, or the teacher uses strategy incorrectly or with parts missing.</i>	<i>The teacher engages students in activities that help them record their understanding of new content in linguistic ways and/or in nonlinguistic ways BUT does not monitor the extent to which these activities enhance students' understanding.</i>	<i>The teacher engages students in activities that help them record their understanding of new content in linguistic ways and/or in nonlinguistic ways and monitors the extent to which this enhances students' understanding.</i>	<i>The teacher adapts and creates new strategies for unique student needs and situations.</i>

Component 2.2: Conducting Practicing and Deepening Lessons

The teacher helps students to practice and deepen their understanding of new knowledge.

Possible Teacher Evidence		Possible Student Evidence	
- Reviews content before engaging in practicing or deepening activities - Provides practice activities that are at the appropriate level for guided practice or independent practice - Provides activities that require students to examine similarities and differences in content - Provides activities that require students to critique or analyze validity of information		- Increase the accuracy and fluency with which they perform skills and processes - Can describe what they now see differently about content previously addressed - Can describe how items are the same and different - Can explain why information is or is not logical/valid	
Unsatisfactory - 1	Basic - 2	Proficient - 3	Distinguished - 4
The teacher does not employ strategies designed to practice skills and processes and critically analyze information OR does so with significant errors or omissions.	The teacher employs strategies designed to practice skills and processes and critically analyze information BUT does not monitor the extent to which strategies have their desired effect.	The teacher employs strategies designed to practice skills and processes and critically analyze information AND monitors the extent to which strategies have their desired effect, which includes: developing fluency with skills and processes, determining similarities and differences between important information, and determining the validity and structure of important information.	The teacher adapts or creates new strategies to meet the specific needs of students for whom the typical application of strategies does not produce the desired effect.

Elements for Component 2.2 Elements are designed to allow teachers to select specific strategies on which to improve and then track their progress using the scales.

Element 2.2.1: When the content involves a skill, strategy, or process, the teacher engages students in structured practice activities that help them develop fluency.

Possible Teacher Evidence	Possible Student Evidence
---------------------------	---------------------------

The Marzano Teacher Evaluation Model by Washington State Criteria

Including Possible Teacher/Student Evidence and Elements for Teacher Growth and Development

- Engages students in massed and distributed practice activities that are appropriate to their current ability to execute a skill, strategy, or process - Guided practice if students cannot perform the skill, strategy, or process independently - Independent practice if students can perform the skill, strategy, or process independently		- Perform the skill, strategy, or process with increased confidence - Perform the skill, strategy, or process with increased competence - Work with teacher for any re-teaching during flexible groups	
Unsatisfactory	Basic	Proficient	Distinguished
When the strategy is called for the teacher does not use it, or the teacher uses strategy incorrectly or with parts missing.	When content involves a skill, strategy, or process, the teacher engages students in practice activities, BUT does not monitor the extent to which the practice increases student fluency.	When content involves a skill, strategy, or process, the teacher engages students in practice activities and monitors the extent to which the practice is increasing student fluency.	The teacher adapts and creates new strategies for unique student needs and situations.
Element 2.2.2: When the content is informational, the teacher helps students deepen their knowledge by examining similarities and differences.			
Possible Teacher Evidence		Possible Student Evidence	
- Engages students in activities that require students to examine similarities and differences between content - Comparison activities - Classifying activities - Analogy activities - Metaphor activities		- Follows analysis of similarities and differences with having students summarize what they have learned and/or explaining how the activity has added to their understanding of the content - Artifacts indicate that their knowledge has been extended as a result of the activity - Can explain similarities and differences - Artifacts indicate that they can identify similarities and differences	
Unsatisfactory	Basic	Proficient	Distinguished
When the strategy is called for the teacher does not use it, or the teacher uses strategy incorrectly or with parts missing.	When content is informational, the teacher engages students in activities that require them to examine similarities and differences, BUT does not monitor the extent to which these activities deepen their knowledge.	When content is informational, the teacher engages students in activities that require them to examine similarities and differences and monitors the extent to which the students are deepening their knowledge.	The teacher adapts and creates new strategies for unique student needs and situations.
Element 2.2.3: When the content is informational, the teacher helps students deepen their knowledge by examining their own reasoning or the logic of the information as presented to them, including errors in reasoning.			
Possible Teacher Evidence		Possible Student Evidence	
- Asks students to examine information for errors or informal fallacies - Faulty logic - Attacks - Weak reference - Misinformation - Asks students to examine the strength of support presented for a claim - Statement of a clear claim - Evidence for the claim presented - Qualifiers presented showing exceptions to the claim		- Can describe errors or informal fallacies in information - When asked, can explain the overall structure of an argument presented to support a claim - Artifacts indicate that they can identify errors in reasoning - Expected to give reasoning or evidence behind thinking with answers	

The Marzano Teacher Evaluation Model by Washington State Criteria

Including Possible Teacher/Student Evidence and Elements for Teacher Growth and Development

Unsatisfactory	Basic	Proficient	Distinguished
<i>When the strategy is called for the teacher does not use it, or the teacher uses strategy incorrectly or with parts missing.</i>	<i>When content is informational, the teacher engages students in activities that require them to examine their own reasoning or the logic of information as presented to them BUT does not monitor the extent to which these activities deepen their knowledge.</i>	<i>When content is informational, the teacher engages students in activities that require them to examine their own reasoning or the logic of information as presented to them, and the teacher monitors the extent to which students are deepening their knowledge.</i>	<i>The teacher adapts and creates new strategies for unique student needs and situations.</i>

Component 2.3: Conducting Knowledge Application Lessons

The teacher provides resources and guidance and organizes students to engage in cognitively complex tasks involving application and transfer of new knowledge.

Possible Teacher Evidence		Possible Student Evidence	
- Establishes the need to transfer and apply new knowledge - Designs and engages students in the following types of cognitively complex tasks: - Decision-making tasks - Problem-solving tasks - Investigation tasks - Experimental/inquiry tasks - Organizes students into groups to complete tasks that require application and transfer of new knowledge - Makes himself/herself available and offers resources and guidance as needed by the entire class, groups of students, or individual students - Circulates around the room - Provides easy access to himself/herself - Uses process grids/matrices to lead students through analysis, evaluation, and synthesis of new knowledge - Creates opportunities for learning to be demonstrated in multiple ways, including narrative, non-linear, and non-linguistic representations, and displays value and appreciation for the learning these demonstrations represent - Creates opportunities for students to interrogate their learning by considering which views, values, or identities are centered/prioritized versus those which are marginalized/unmentioned		- Engage in decision-making tasks - Engage in problem-solving tasks - Engage in investigation tasks - Engage in experimental/inquiry tasks - Describe the importance of transferring and applying new knowledge - Explain how groups support their learning if groups are used or use group activities to help them generate and test hypotheses - Seek out the teacher for advice and guidance regarding application and transfer tasks - Can explain how the teacher provides assistance and guidance in application and transfer tasks - Generate their own interest in study that transfers and applies new knowledge	
Unsatisfactory - 1	Basic - 2	Proficient - 3	Distinguished - 4
When the strategy is called for the teacher does not use it or the teacher uses the	The teacher organizes students and acts as a guide and resource provider but	The teacher organizes students and acts as a guide and resource provider as	The teacher adapts or creates new strategies to meet the specific needs of

strategy incorrectly or with parts missing.	students primarily engage in low level tasks.	students engage in cognitively complex tasks and monitors the level to which students apply and transfer the new knowledge.	students for whom the typical application of strategies does not produce the desired effect.
---	---	---	--

Elements for Component 2.3 Elements are designed to allow teachers to select specific strategies on which to improve and then track their progress using the scales.

Element 2.3.1: The teacher engages students in cognitively complex tasks which require them to apply what they have learned in novel situations.

Possible Teacher Evidence	Possible Student Evidence
- The teacher engages students in activities such as: - Experimental/inquiry tasks - Problem-solving tasks - Tasks to examining the efficiencies of multiple problem solving methods - Decision-making tasks - Investigation tasks - Invention tasks - Student-designed tasks	- Students are engaged in cognitively complex tasks - Students can explain the conclusions they have generated - Students produce artifacts of their work

Unsatisfactory	Basic	Proficient	Distinguished
When the strategy is called for the teacher does not use it, or the teacher uses strategy incorrectly or with parts missing.	The teacher engages students in cognitively complex tasks which require them to apply what they have learned in novel situations, but does not monitor the extent to which students illustrate knowledge application.	The teacher engages students in cognitively complex tasks which require them to apply what they have learned in novel situations, and monitors the extent to which students illustrate knowledge application.	The teacher adapts and creates new strategies for unique student needs and situations.

Element 2.3.2: The teacher provides resources and guidance to students as they engage in cognitively complex knowledge application tasks.

Possible Teacher Evidence	Possible Student Evidence
- The teacher provides resources and guidance such as: - Using proficiency scales or rubrics - Providing resources - Providing informational handouts - Teaching research skills - Conducting interviews - Circulating around the room - Collecting informal assessment information - Offering feedback - Creating cognitive dissonance	- Students seek the teacher for advice - Students can explain how the teacher's actions help them - Students are actively working, making adaptations as they go

Unsatisfactory	Basic	Proficient	Distinguished
----------------	-------	------------	---------------

The Marzano Teacher Evaluation Model by Washington State Criteria

Including Possible Teacher/Student Evidence and Elements for Teacher Growth and Development

<i>When the strategy is called for the teacher does not use it, or the teacher uses strategy incorrectly or with parts missing.</i>	<i>The teacher provides resources and guidance to students as they engage in cognitively complex knowledge application tasks, but does not monitor the extent to which the resources and guidance support student application of knowledge.</i>	<i>The teacher provides resources and guidance to students as they engage in cognitively complex knowledge application tasks, and monitors the extent to which the resources and guidance support student application of knowledge.</i>	<i>The teacher adapts and creates new strategies for unique student needs and situations.</i>
Element 2.3.3: The teacher engages students in opportunities to generate new conclusions, defend claims, and provide evidence to support their conclusions.			
Possible Teacher Evidence		Possible Student Evidence	
- Introducing concepts such as claims and support - Presenting the formal structure of claims and support - Generating claims - Providing grounds - Providing backing - Generating qualifiers - Formally presenting claims		- Students can generate claims based on their cognitively complex tasks - Students can provide grounds, backing, and qualifiers - Students can describe why generating and supporting claims helps them learn more deeply and rigorously.	
Unsatisfactory	Basic	Proficient	Distinguished
<i>When the strategy is called for the teacher does not use it, or the teacher uses strategy incorrectly or with parts missing.</i>	<i>The teacher engages students in opportunities to generate new conclusions, defend claims, and provide evidence to support their conclusions, but does not monitor the extent to which these demonstrate knowledge application.</i>	<i>The teacher engages students in opportunities to generate new conclusions, defend claims, and provide evidence to support their conclusions, and monitors the extent to which these demonstrate knowledge application.</i>	<i>The teacher adapts and creates new strategies for unique student needs and situations.</i>

Component 2.4: Asking in-depth questions of reluctant learners and students regularly marginalized or underserved by school systems

The teacher asks questions of reluctant learners and students regularly marginalized or underserved by school systems with the same frequency and depth as other students.

Possible Teacher Evidence		Possible Student Evidence	
- Asks typically underserved students complex questions at the same rate as other students - Rephrases questions - Scaffolds questions for all students for language and ability needs - Allows various responses to show understanding - Gives wait time equitably - Doesn't let students "off the hook" - Uses think-pair-share - Uses team discussions - Uses written response		- Say that the teacher expects everyone to participate - Say that the teacher asks difficult questions of every student	
Unsatisfactory - 1	Basic - 2	Proficient - 3	Distinguished - 4
When the strategy is called for the teacher does not use	The teacher asks questions of all students with the	The teacher asks questions of all students with the	The teacher adapts or creates new strategies to

it or the teacher uses the strategy incorrectly or with parts missing	same frequency and depth but does not monitor the quality of participation.	same frequency and depth and monitors the quality of participation.	meet the specific needs of students for whom the typical application of strategies does not produce the desired effect.
---	---	---	---

Component 2.5: Appropriately probing incorrect answers given by reluctant learners and students regularly marginalized or underserved by school systems

The teacher probes incorrect answers given by reluctant learners and students regularly marginalized or underserved by school systems in the same manner as other students' incorrect answers.

Possible Teacher Evidence		Possible Student Evidence	
- Rephrases questions in response to incorrect answers - Asks additional questions to further explain answers - Breaks questions into smaller/simpler parts when answers are incorrect - Allows students to collect their thoughts and returns to them at a later time - Actively reframes student mistakes (in learning) as an opportunity to gain information about student learning needs and how to refine teaching practices to meet those needs - Provides asset-based feedback to students that is instructive, corrective, and actionable to promote progress toward increased cognitive complexity rather than solely error correction; the teacher demonstrates awareness of the equity with which they provide this feedback to students based on race, gender, or language identities		- Say that the teacher does not "let you off the hook" - Say that the teacher "won't give up on you" - Say that the teacher helps them answer questions successfully	
Unsatisfactory - 1	Basic - 2	Proficient - 3	Distinguished - 4
When the strategy is called for the teacher does not use it or the teacher uses the strategy incorrectly or with parts missing.	The teacher is not consistent in probing all students' incorrect answers.	The teacher probes all students' incorrect answers and monitors the level and quality of the responses.	The teacher adapts or creates new strategies to meet the specific needs of students for whom the typical application of strategies does not produce the desired effect.

Component 2.6: Noticing When Students Are Not Engaged

The teacher uses various methods to engage students.

Possible Teacher Evidence		Possible Student Evidence	
- Scans room to determine the level of student engagement - Intentionally works to learn the common actions or conditions that make students feel unsafe, and acts accordingly based on the students' definitions of what feels uncomfortable or		- Students visibly adjust their level of engagement based on teacher actions - Students describe the class as interesting - Students attend to appropriate activities throughout the class
